DETAILED ACTION

Allowable Subject Matter

1. Claims 1-4 & 6-9 are allowed.
2. The following is an examiner's statement of reasons for allowance: U.S. Patent 5,787,171 to Kubota et al. discloses the limitations, as set forth in the previous Office Action. Further, U.S. Patent 5,896,255 to Mardirossian teaches a disk system where a computer sends a signal to an originating disk to erase the software on the disk (col. 6, lines 32-65). However, the prior art relied upon fails to teach or suggest second output means for informing the first recording medium of a permission or prohibition of movement of the main data and completion of the movement of the main data, causing the second output means to inform the first recording medium of permission of movement of the main data, where the permission is based on the ability to decode the encoded data, thereby causing the erasure of the data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
